ABOUT US

With the headquarter in Austria/Wels, COLOP® is one of the world's leading producers for modern stamping and marking products. The company has an export rate of 98% and delivers in more than 130 countries since decades.

Today COLOP is active in 3 business fields: in addition to the traditional stamp sector, the electronic-digital area came with COLOP Digital and with the COLOP Arts & Crafts also the creative, gift and hobby area is covered.

COLOP® digital

COLOP Digital GmbH was established as a subsidiary of COLOP GmbH and Co. KG in Wels in 2018, to further expand the Wels location and set a milestone for the future of COLOP. In addition to the e-mark®, COLOP Digital GmbH is developing further electronic and digital marking devices and the corresponding software solutions.

WHAT IS THE E-MARK®?

The e-mark is a mobile printer for many different uses - primarily in the professional sector. It is controlled via an app for Android or iOS, or via the e-mark Windows PC version. With a few clicks you can easily design your imprint, send it to the e-mark via WIFI/USB and print it immediately by moving the e-mark sideways.

Multi-colour printing
Due to the three-colour cartridge, which was developed in cooperation with HP Inkjet Technology, printing company logos, texts and images in any colour combination is easy with the e-mark. With a resolution of 600 dpi, the e-mark achieves excellent print quality.

Special inks
Next to the common three-colour cartridge, COLOP also provides some types of special inks for several different use cases, like invisible UV ink or document proof black pigment ink.

Date, time and numbering generator
Print the date, time or consecutive numbering without having to worry about switching - the e-mark will do it for you!

Free apps for individual designs
One e-mark, two apps: The e-mark comes with the e-mark app and the e-mark create app. Countless templates in the apps are ready to be printed. The imprint can be changed flexibly with just a few clicks. Several imprints can be selected in the print queue and are sent to the e-mark one after the other.

QR and barcode generator
Generate your own QR code or barcodes in the e-mark app and print them immediately.

Prints on many surfaces
Print directly on any absorbent surface such as paper, cardboard, cork, textiles, ribbons or even wood.

Windows desktop software
The e-mark desktop software is ideal for office use, but also wherever it is used stationary. The same functionalities are available as in the mobile app. Data is transferred via USB cable or WIFI.

Compact and mobile
The e-mark is the size of your palm and can therefore be used on the go. It can be operated flexibly via the mobile app for Android or iOS.

Serial printing function (CSV files)
Data records in list form can also be printed imprint by imprint without having to change them every time. The CSV file automatically updates the data set in the background and the app sends the new imprint to the e-mark.

Various accessories available
A number of accessories are available for the e-mark, including various labels, a ruler for easier printing, cotton ribbons, wristbands and a Multiline Printing Tool for printing cards.

Storage positions on the e-mark
Do you have some imprints that you need regularly and don't always want to search for? No problem for the e-mark! Up to 4 imprints can be permanently saved on the e-mark. By tapping on the e-mark you can switch between these 4 imprints even without a connection to the app.

Variable print size for every application
The e-mark can print imprints up to 150 x 14 mm. Depending on your needs, the imprint can be smaller or divided into two or three lines.

HOW DOES THE E-MARK® WORK?

The e-mark is ready to print in just few steps:

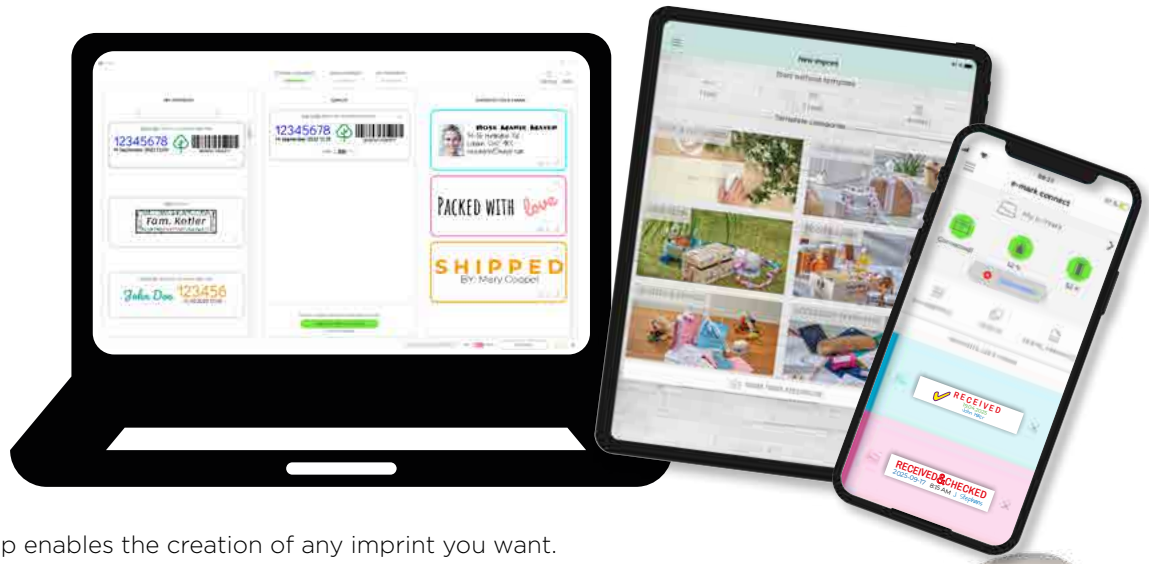
1. **Put the e-mark into operation**
2. **Install the app/software and connect the e-mark (WIFI/USB)**
3. **Create an imprint or use an existing template**
4. **Send imprint & print!**

App & software

The mobile app supports devices with the operating systems Android and iOS. The desktop software runs on computers with Windows. Check on our website if your Android, iOS or Windows version is compatible with the app or software:
https://emark.colop.com/osversion

In addition to the standard app, the e-mark can also be used with the e-mark create app. This app was specially designed for creative needs.

Download mobile app and desktop software:
https://emark.colop.com/software



The app enables the creation of any imprint you want. Whether text, image, date, numbering, QR code or a combination of these - there are (almost) no limits to the individual design.
The app already contains more than 100 ready-to-use templates. In addition, we offer many templates on a wide variety of topics on our website. These can be easily downloaded and imported to the app.
All templates can easily be edited, moreover you can design imprints yourself.

Printer driver

The printer driver is available for Windows. Check on our website if your Windows version is compatible with the printer driver: http://emark.colop.com/osversion

The printer driver enables direct sending and printing from external programmes such as Microsoft Word, Paint, photo editing programmes or web browsers. Furthermore, this software comes with advanced setting options like individual colour adjustment and exclusive imprint sizes like 267 x 15 mm, 130 x 29 mm (2 lines) or 87 x 43 mm (3 lines). For first initial steps COLOP provides some templates for Microsoft Word and Excel as well as a manual to guarantee a smooth start.

Download printer driver:
https://emark.colop.com/e-mark/downloads/software-app-printer-driver-download

Templates on our website

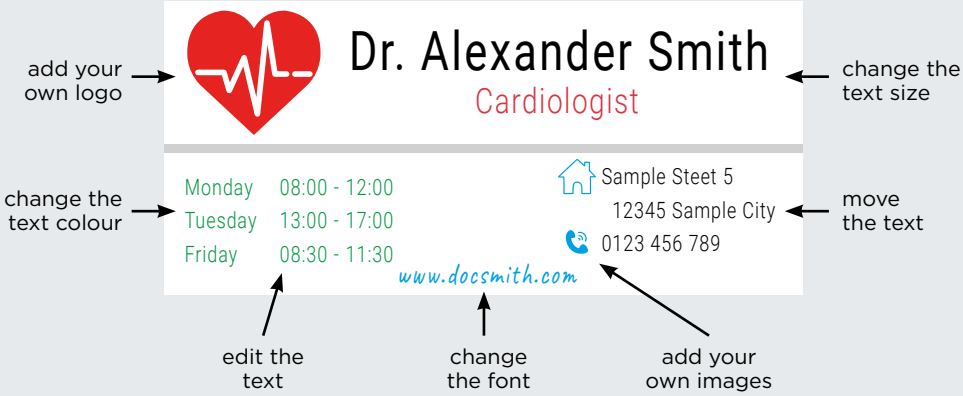
All of our additional templates can be found under the following link:
https://emark.colop.com/templates

You can choose from different categories, select individual templates and then download them together. Then they just have to be saved on the respective device and imported into the app. The great thing about the templates: they can be easily changed and thus enable adding a personal touch!

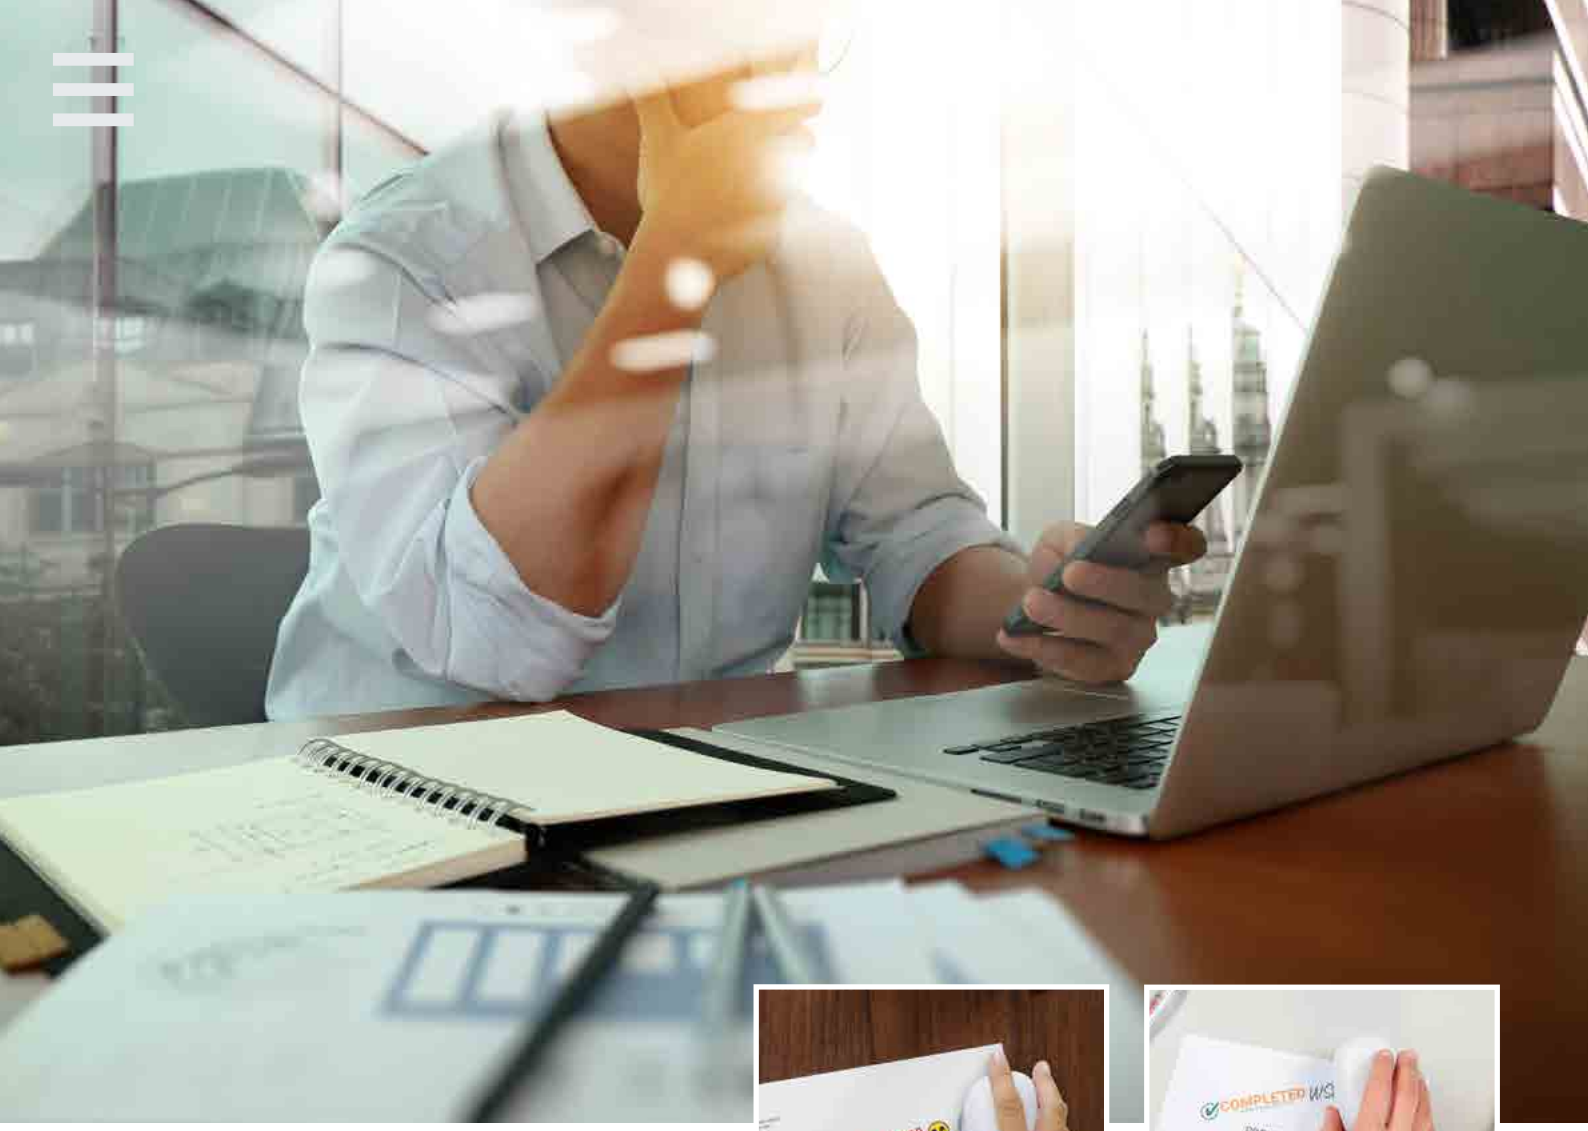
You can find step-by-step instructions here:
https://emark.colop.com/faq/templates

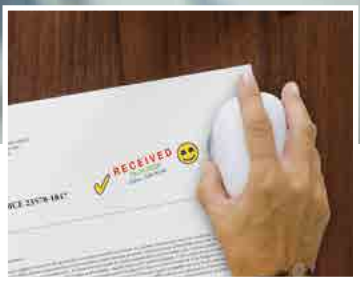
1. **Download one of our fully editable templates from the website ...**

2. **... and fully customise it to your needs and liking!**



Please note that the images of the imprints in the catalogue may differ from the actual templates for download on our website. All imprints can, however, be changed in the app to your liking.





COLOP e-mark®
THE OFFICE SPECIALIST

The ideal companion for everyday office life for stamping documents, labelling office equipment, printing packages and adding variety to the office.

The e-mark enables many practical options for office use:

- Flexible and quick change between imprints
- Windows software for stationary use
- Automatic date and time function
- Automatic numbering function
- Serial printing function of CSV files
- QR code & barcode generator in the app
- Extensive range of labels for all types of labelling

COLOP e-mark®
THE NUMBERING STAMP

No more dirty hands through manually setting consecutive numbering.
The e-mark changes the numbering independently and fully automatic.

The e-mark makes numbering much easier:

- Automatic numbering function
- Flexible and quick change between imprints
- Windows software for stationary use
- Combination with automatic date and time function
- Flexible choice of colours in the imprint
- Ideally suited for mobile use e.g. in the warehouse
- Use of colour codes possible - e.g. to differentiate between product groups
- Direct printing on cardboard boxes, paper bags and various surfaces, such as wood or textiles is possible

COLOP e-mark®
THE RIBBON PRINTER

The ideal solution when it comes to printing on ribbons.
There are no limits to the design of gift ribbons, packaging ribbons with your logo or seasonal ribbons, whether short or long.

With its versatility, the e-mark is perfect for the use as a ribbon printer:

- Brings that certain “something” to gifts, flowers or greeting cards
- Flexible and quick change between imprints
- Windows software for stationary use
- Full colour customisable imprints
- Choice of many clipart, colours, fonts and shapes to design your imprint

Ideal for use with the COLOP e-mark Ribbon Guide.
Available in 3 different sizes: 10 mm, 15 mm, 25 mm.

COLOP e-mark®

PROFESSIONAL ROLL PRINTING SYSTEM

The COLOP e-mark Ribbon Station enables the e-mark to act like a professional roll printer without losing any of its flexibility skills.

Whether you like to print a full roll or just a random number of labels or imprints on your ribbon, the e-mark handles the intense need of individualisation, flexibility and efficiency in a unique and never seen way. Use one of our templates to edit and define the printing length or the number of imprints you want to produce in the software.

- Flexible and quick change between imprints
- Full colour customisable imprints
- Adjustable length or repetition of the prints
- Space saving and attractive design
- Quick and easy to use

COLOP e-mark®

THE ENDLESS LABEL PRINTER

Create your labels with pictures, colours and different fonts or mark objects in your office, kitchen or workshop and much more. You can label the clothes of children, staff or club members as you like, personalise textile labels and make the imprint wash resistant by ironing it on.

The e-mark facilitates printing labels thanks to its flexible and simple operation:

- Flexible and quick change between imprints
- Windows software for stationary use
- Full colour customisable imprints
- QR code & barcode generator in the app

Ideal for use with the COLOP e-mark Ribbon Guide.

COLOP e-mark®
THE LABEL PRINTER

The label sheets are perfect for labelling personal items, handmade products, for the use as information stickers and much more. Simply print, peel off and stick on - done.

The e-mark as a label printer
offers many advantages:

- Flexible and quick change between imprints
- Windows software for stationary use
- Automatic date and time function
- Automatic numbering function
- Full colour customisable imprints

TEMPLATE SET "LABEL SHEETS"

COLOP e-mark®
THE SIGN PRINTER

Whether as lettering for shelves or similar storage systems, for flexible price labelling, as a gift tag or as a nametag for events such as trade fairs and congresses, the new COLOP e-mark signs serve the needs of a broad area of application.

Thanks to the 18 mm height format, the cards can be easily inserted into the recess of the COLOP e-mark Ruler and therefore can be printed with precise positioning.

The signs with already applied self-adhesive tape can be used very conveniently for shelf lettering. The small signs with a punched hole are ready for quickly designing unique looking keychains or name tags.

- Truly mobile use
- Full colour customisable imprints
- Flexible and quick change between imprints
- Splash-proof and solvent resistant
- Scratch resistant

COLOP e-mark®

THE WRISTBAND PRINTER

Whether it's wristbands for events, sport events, private parties or the health sector, the e-mark brings a breath of fresh air with individually designed imprints.

The e-mark as wristband printer can be used in many areas:

- Flexible and quick change between imprints
- Automatic date and time function
- Automatic numbering function
- Full colour and full-surface imprints
- Unlimited personalisation
- Ideal for smaller events - starts with lot size 1

Ideal for use with the COLOP e-mark Ruler.

- Be inspired by the templates or create designs of your own ideas

TEMPLATE SET "CREATE"

Template download:
https://emark.colop.com/templates/create

CONSUMABLES

3-Colour replacement cartridge C2 HI-LX
The three-colour ink cartridge (HP) enables full-colour imprints and is suitable for almost all absorbent surfaces.

- Tricolour: cyan, magenta, yellow
- Print quality: 600 dpi
- Around 1.500 imprints with one cartridge (depending on the imprint design)
- Easily exchangeable with a few simple steps
- Water-based ink

Black pigment ink
The black pigment ink offers a water and solvent resistant and therefore document proof pure black print in compliance with DIN ISO 14145.

- Pure black
- 600 dpi
- Up to 6500 imprints
- Easily exchangeable with few simple steps

Not suitable for following products within the COLOP e-mark product range:
- Plastic cards and signs – item no. 156480, 156477, 156478, 156479
- Endless label white glossy and transparent – item no. 155361, 155362

UV ink
Imprints done with the UV ink only become visible when they are illuminated with a UV lamp. It is perfect for various security applications or for a surprising use at events.

- 600 dpi
- Up to 5000 imprints
- Easily exchangeable with few simple steps

Plastic and paper cards
The plastic and paper cards are ideally suited to fit into the Multiline Printing Tool.

- Standard credit card format (ID1 format)
- Colour: white
- Special coating of the plastic cards makes them water, eco-solvent and scratch resistant

Ribbons 10/15/25 mm
The cotton ribbons can be printed on with the e-mark and are available in three common ribbon sizes.
- 100% cotton of high quality
- Ideal for use with the three e-mark Ribbon Guides
- Colour: White
- Size: 10/15/25 mm x 25 m

Water-resistant Ribbon 15 mm
The water-resistant ribbon can be printed on with the e-mark and is water-resistant due to special coating.

- 100% cotton of high quality
- Ideal for use with the e-mark Ribbon Guide
- Colour: White
- Size: 15 mm x 25 m

It is recommended to print on the outer side of the ribbon for best results.

Plastic signs 80 mm and 45 mm with adhesive film and plastic sign 45 mm with punched hole
The adhesive signs are the perfect product for a broad range of applications to label your world. The signs with a punched hole are perfect for keychains or name tags.

- Ideal for use with the e-mark Ruler
- Colour: white
- Special coating makes them water, eco-solvent and scratch resistant

CONSUMABLES

Endless Labels textile
The endless textile labels are washable and are simply ironed onto the respective piece of textile.

- Ideal for use with the e-mark Ribbon Guide
- Colour: White
- Size: 15 mm x 8 m
- Attention: the textile labels are not suitable for tumble drying!

And this is how it works:
1. Print on the label (best using a Ribbon Guide)
2. Cut the label and place it on the garment
3. Put baking paper on top
4. Iron it on - 5-10 seconds at 110-115 ° C

Endless Labels white/transparent
The endless labels come in the form of rolls and are made of a special material that makes the imprints scratch and splash resistant. The self-adhesive labels adhere firmly to paper, cardboard, plastics, glass, metal and similar materials.

- Ideal for use with the e-mark Ribbon Guide
- Colour: Available in white glossy and transparent
- Size: 14 mm x 8 m
- Labels are easily removable

Label Sheets
The self-adhesive labels adhere firmly to paper, cardboard, plastics, glass, metal and similar materials. They are very easy to print on with the e-mark.

- 300 labels per pack (10 A4 sheets with 30 labels each)
- Label size: 48 x 18 mm
- Markings at each label as a positioning aid

Event and Party Wristbands
The wristbands are an eye-catcher at parties, events or other occasions and can be printed on with the e-mark quickly and easily. In addition they can be very helpful at organising.
The special material ensures scratch and splash-proof imprints.
For best results, we recommend printing with the e-mark Ruler.

- 100 wristbands per pack (10 sheets with 10 wristbands each to tear off)
- Wristband size: 19 x 250 mm
- Polyart inkjet material
- Always print on the lowest band, tear off and print the next lower band (the sensor cannot detect any movement on the material)

ACCESSORIES

Protective Case
The compact case protects the e-mark against scratches, small bumps, dirt, dust and splash water and facilitates the transport of the e-mark.

- Light and robust material
- Colour: Black
- Size L x W x H: 125 x 90 x 80 mm

Ruler
The Ruler is a practical support accessory especially on surfaces that are very small, uneven or difficult to print on.

- Colour: Smoky topaz/ transparent
- Size L x W x H: 276.9 x 103.4 x 6 mm

Ribbon Guide
With the Ribbon Guide, ribbons can be personalised very quickly and easily. Simply thread the ribbon through the guide and move the e-mark to the right or left side together with the ribbon guide.

Set 15 + 25 mm

- Colour: Smoky topaz/ transparent
- Set of 2 different sizes (15 and 25 mm)
- Ideal for printing on the e-mark Ribbon

10 mm

- Colour: Smoky topaz/ transparent
- 1 size (10mm)

Attention: The width of the ribbon 10 mm is smaller than the editor field in the app. Use a template from the Ribbon category labelled "COLOP Ribbon 10 mm".

Ribbon Station
The Ribbon Station enables the e-mark to act like a professional roll printer without losing any of its flexibility skills.

- Adjustable length or repetition of the prints
- Space saving and attractive design
- Quick and easy use
- Includes all three sizes of the e-mark Ribbon Guide

The Ribbon Station can only be used with imprints generated from the templates of the respective Ribbon Station category within the software!

Multiline Printing Tool
The Multiline Printing Tool enables the professional printing of various cards, such as business cards, access cards, voucher cards and much more.

- For cards in ID-1 format (85.6 x 53.98 mm)
- Guide rails for perfect positioning
- Includes 10 paper and 10 plastic cards

The Multiline Printing Tool can only be used with imprints generated from the templates of the respective Card Printing category within the software and the COLOP e-mark®!

e-mark kit
